

**CITY OF CRIPPLE CREEK

POLICY AND PROCEDURE MANUAL**

I. Purpose

The City of Cripple Creek is committed to a safe, healthy, and productive work environment for all employees free from the effects of substance abuse. Abuse of alcohol, drugs, and controlled substances impairs employee judgment, resulting in increased safety risks, injuries, and faulty decision-making, which may impact the entire organization.

II. Scope

This policy applies to all employees who do not hold a CDL. All employees have been issued upon initiation of this policy or upon hire a copy of this city policy, describing in detail what substances will be tested for and under what conditions employees will be tested.

III. Statement of Policy

To ensure a safe and productive work environment the city prohibits the use, sale, dispensation, manufacture, distribution or possession of alcohol, drugs, controlled substances, or drug paraphernalia on any city premises or worksites. This prohibition includes city owned vehicles, or personal vehicles being used for city business or parked on city property.

No employee shall report to work or be at work with alcohol or with any detectable amount of prohibited drugs in the employee's system. This also includes lunch breaks and other breaks designated by the city.

Employee's shall, when drugs are prescribed by a medical professional, inquire of the prescribing professional whether the drug prescribed has any side effects which may impair the employee's ability to safely perform the employee's job duties. If the answer from the medical professional is yes, the employee shall obtain a statement from the medical professional indicating any work restrictions and their duration. The employee shall present that statement to his or her supervisor prior to going on duty.

Illegal use of drugs off duty and off city premises or worksites is not acceptable. It can affect on-the-job performance and the confidence of the public, and our customers in the city's ability to meet its responsibilities.

Any violation of this policy will result in disciplinary action up to and

VIII. Voluntary Treatment

The city supports sound treatment efforts. Whenever practical, the city will assist employees in overcoming drug, alcohol, and other problems which may affect employee job performance, as long as this policy has not already been violated.

If an employee seeks treatment for drug or alcohol use, the employee may be eligible to go into a drug and/or alcohol treatment program either through the City of Cripple Creek's medical insurance program or at his or her own expense.

If the employee elects to enter an appropriate treatment program, the employee may be placed on unpaid status, but will be required to use any accrued vacation time and sick leave while participating in the evaluation and treatment program, so long as the employee is complying with the conditions of treatment. The City of Cripple Creek will have the right to require verification from the health care provider for a release to work and/or verification of treatment as covered in the city's medical leave policies. More information regarding availability of treatment resources and possible insurance coverage for treatment services is available from the Human Resources Department.

IX. Safeguards/Confidentiality

The drug screen analysis is accomplished through urinalysis testing. Alcohol testing may be through breath testing. Samples will be collected in a sanitary environment designed to maximize employee's privacy while minimizing the possibility of sample tampering. If there is a positive drug and/or alcohol result on the initial screening test, the laboratory or blood alcohol technician will automatically do a second test to confirm the results. The second drug test will be performed using gas chromatography/mass spectrometry or other scientifically accepted method. A positive breath alcohol test will be confirmed by a second breath test. In the event the drug and/or alcohol test result is a dilute negative, the employee/applicant will be required to re-test.

All drug tests are performed by a government-certified outside laboratory. All government-certified outside laboratories strictly follow chain of custody guidelines to ensure the integrity of the testing process. The city shall use a Medical Review Officer (MRO) who will receive the laboratory results of the testing procedure. The MRO shall be a licensed physician and have knowledge of substance abuse disorders and the appropriate medical training to evaluate positive results, medical histories, and any other relevant biomedical information. The MRO shall review all medical records made available by the tested individual when a confirmed positive test could have resulted from legally prescribed medication.

If the results of the initial test are negative, the testing laboratory will report the results to the MRO retained by the city. The MRO or the testing laboratory reports the negative results to the city. In this instance, no additional tests on the specimen will be done.

If the results of the initial test are positive, that is, if the results exceed the permitted levels for any of the five drugs tested or if the blood alcohol test comes back positive, a second confirmatory test shall be performed. The employee is prohibited from performing any duties if the initial test is positive, and while the confirmatory testing is being performed. Only specimens that are confirmed positive on the second test are reported positive to the MRO for review and analysis. The MRO will contact the employee personally, in the case of a positive test result. The MRO has the responsibility of reporting to the City of Cripple Creek whether the test results are positive or negative.

An applicant or employee who does not pass a drug test may request that the original sample be analyzed again at the individual's expense by a government certified laboratory. All requests for an independent analysis must be made in writing within 72 hours of notification of a confirmed positive test result. Each applicant or employee will have an opportunity to discuss the drug and/or alcohol test with a Medical Review Officer in a confidential setting. Each applicant or employee upon his or her request may be provided with a written

copy of the positive test result, upon written request. Upon written request within seven days of taking the test an employee may access records relating to his drug and/or alcohol test.
